# A Store You Can Have Absolute Faith In

---

The prestige of the Hudson's Bay Co. has been steadily and painstakingly built up as the result of two and a half centuries of trading. This prestige is the most cherished asset of this great institution. It is something which money cannot buy because it is founded on the confidence of the buying public—confidence that comes only from a fair deal and expert merchandising experience.

In this school, all work in theory and practice in all departments, is under the personal direction of the Principal, whose successful experience covers twenty years in leading commercial colleges of the United States and Canada. "SYSTEM," our constant watchword.

The representative of a large eastern office equipment concern recently stated concerning our work: "Your students, with this advanced training, will be worth from \$15.00 to \$20.00 per month more as office assistants, than the graduates of other schools." He referred to the work we prepared for the S. C. R. schools and which we use in our senior classes.

We are meeting with phenomenal success in placing students in desirable positions. After periods of review, coaching and advanced work, we have placed a number of students from other schools, who had been unable to secure employment. "THOROUGHNESS," the secret of our success.

Note our tuition rates quoted above. For particulars address—
